TECHNICAL FEATURES

HEADREST adjustable fabric and reclining angle with injected foam.

BACKREST in Runproof 3D fabric height-adjustable.

LUMBAR SUPPORT height-adjustable with position detector(can also be depht-adjustable).

1D or 3D adjustable **ARMRESTS** with PU coating.

Height-adjustable **SEAT** with polyurethane foam Average thickness of 50 mm and density of 56 kg/m3.

Synchronised **SEAT-BACKREST** with anti-shock locking feature. Two available mechanisms: self-weighting mechanism or sincro (with optional trasla seat).

GAS LIFT PISTON

NYLON 5 STAR BASE 710mm total diameter Optional polished aluminium base.

65 mm diameter hard double-rolling free **CASTERS**. Also available: soft double casters with self-braking mechanism.

ZEN chair
DIMENSIONS

FEATURES

ZEN seat

SDS002
PU seat for ZEN chair

50mm medium-thickness PU injected foam seat designed for maximum confort, flexibility and pressure distribution while seated. 56 kg/m3 density. 500x470 mm total dimension.

Seat mechanisms

SYM035
Self-weighting mechanism

This mechanism automatically adjusts its firmness to the user's weight, ensuring perfect functionality while coordinating the reclining movement of the backrest with the seat adjustment.
The seat locking mechanism is activated using a lever located beneath the seat.

SYM023
Sincro mechanism

This system features a synchronized tilting mechanism between the seat and the backrest, allowing the recline tension to be adjusted with a lever positioned beneath the seat.
Offers effortless adjustability and a refined look that enhances the chair's design.

SYM023T
Sincro mechanism with trasla

This mechanism is similar to the SYM023, featuring a translational system that allows the adjustment of the seat depht relative to the backrest throuht horizontal movement.

Gas lift piston

AGM181/Ne
Gas lift piston for seat

Height-adjustment via a gas lift piston with a 50 mm diameter, a height of 230 mm and a stroke of 135 mm. This mechanism is activated using a lever located beneath the seat.

Bases

BAY710/Ne
Nylon base

Nylon 5 star base finished in black. The total diameter is 710 mm with a central support for the 50 mm diameter gas lift piston.

BAA335
Pulished aluminium base

Pulished aluminium 5 star base. The total diameter is 690 mm with a central support for the 50 mm diameter gas lift piston.

Casters

RUY012/Ne/Sa/Lib
65 mm free caster

65 mm diameter black free rubber casters. 11x20 mm pin.

RUY012/Ne-Go/Sa
65 mm self-braking caster

65 mm diameter self-braking wheel finished in black. 11x20 mm pin.

ZEN Headrest

ACD022/Ne
Adjustable headrest

Height and depht adjustable upholstered headrest on a nylon shell finished in black.

Armrest

BRP003/Ne
1D Armrest

1D armrest with a black PP finish on a nylon support. Height adjustement of 75 mm, operated by pressing the button located on the armrest.

BRP006/Ne-Pu
3D Armrest

3D armrest with black PU pad on a nylon support. The arm pivots 30°, allowing horizontal rotation. The mecanism can be activated by pressing the button located on the armrest.

ZEN Lumbar support adjustement

ACD020/Gr
Lumbar support with height-adjustment

Lumbar support with a height-adjustment in grey finish.

ACD021/Gr
Lumbar support with height and depht adjustment

Lumbar support with a height and depht adjustment in grey finish.

Finishes

Frame, base and arms

Black	White (Request price and delivery time)

Mesh

Black	Grey (Request price and delivery time)	Orange (Request price and delivery time)	Blue (Request price and delivery time)

Fabrics

All finishes from the EMOBOK fabric charts are available in groups G1, G2, G3, G4 and G5.

REGULATIONS

The **ZEN** chair has passed the test performed by EMOBOK's internal quality control team, achieving satisfactory results in compliance with these regulations:

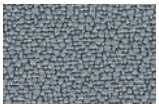

UNE-EN 1335-1:2021+A1:2023 Office furniture. Office chairs. Part 1: Dimensions. Determination of dimensions.
UNE-EN 1335-2 Office furniture. Office chairs. Part 2: Safety requirements.
UNE-EN 1022:2024 Furniture. Seating. Determination of stability.
